

Statewide Portable Equipment Registration Program
FORM 7 - Modification to an Existing Registration
 (Auto-fill format. Use "Tab" or up/down arrows to enter information)

1. Company Name:	
2. Registration Number:	
3. Indicate How Registration is to be Modified (choose one)	
<div style="margin-bottom: 10px;"> <input type="checkbox"/> Change of Ownership (\$75) Fill out a form 1 (Company Information) </div> <p style="margin-left: 40px;">Describe the general use of the engine or equipment unit: Home District Designation:</p> <div style="margin-left: 40px;"> <input type="checkbox"/> Check this box if your company is a rental business <input type="checkbox"/> Check this box if the statewide registration sticker is intact and on engine or equipment unit <input type="checkbox"/> Check this box if the statewide registration sticker is NOT intact on engine or equipment unit </div> <p>Renewal Fees are required if the postmark date of the application is <u>within five months</u> of the current expiration date.</p> <div style="margin-left: 40px;"> <input type="checkbox"/> \$225 for three year renewal. <input type="checkbox"/> \$375 for five year renewal cycle. </div> <p style="margin-left: 40px;">Proceed to Item 4 Below.</p>	
<div style="margin-bottom: 10px;"> <input type="checkbox"/> Change Status from Non-operational to Operational (\$90 or \$180) </div> <p style="margin-left: 40px;">Where an initial ARB evaluation has been performed, submit \$90. Where an ARB evaluation has not been performed submit \$180.</p> <p style="margin-left: 40px;">Proceed to Item 4 Below.</p>	
<div style="margin-bottom: 10px;"> <input type="checkbox"/> Identical Replacement (\$75) Fill out a form 1 (Company Information Page) </div> <p style="margin-left: 40px;">Indicate serial number of engine or equipment unit replacing the registered engine or equipment unit being replaced: Date engine/equipment unit replaced: Date of mechanical breakdown:</p> <p style="margin-left: 40px;">Attach documentation describing the mechanical breakdown.</p> <p style="margin-left: 40px;"><u>Note:</u> Remove sticker from engine or equipment unit and return the sticker with this form.</p> <p style="margin-left: 40px;">Proceed to Item 4 Below.</p>	
<div style="margin-bottom: 10px;"> <input type="checkbox"/> Modification to an Engine's or Equipment Unit's Configuration, Emission Control Equipment, or Operating Conditions (\$75) </div> <p style="margin-left: 40px;">Explain changes to engine or equipment unit. Attach an emissions summary or design parameters if applicable.</p> <p style="margin-left: 40px;">Proceed to Item 4 Below.</p>	
4. Printed Name of Company Responsible Party:	Title:
5. Signature of Company Responsible Party:	Date:

NOTE: This form is specifically for modifications to an existing registration. Use this form only if the engine or equipment unit has a current valid registration with the Air Resources Board.

Modification to an Existing Registration: *Please provide the following information:*

1. *Company Name* - Legal name on current registration
2. *Registration Number* - This is the unique number assigned to the engine or equipment unit and is listed on the Statewide Registration Program certificate.
3. *Indicate How Registration is to be Modified* - Check the box that best describes the action you wish:

Change of Ownership - Check this box if you have purchased an engine or equipment unit with an ARB registration. Attach **Form 1, General Information**, along with **Form 7**. List the general use of the engine or equipment unit. Indicate the "home District," the one air pollution control or air quality management district in which this engine or equipment unit is most commonly operated. This district will be designated as your "home" district in which you will not have to notify. It is not required that a home district be designated. Check the box if your company is a rental business. A *rental business* means a business where the principal use of its engines or equipment units is to temporarily rent or lease for profit, portable engines or equipment units to operators other than the owner(s) of the engine or equipment unit. Indicate if the sticker is intact and on the engine or equipment unit. The fee is \$75 per registered unit for a change of ownership

Change status from non-operational to operational - Check this box if you want to change the status of an engine or equipment unit from non-operational to operational. If the engine or equipment unit was originally registered with an initial ARB evaluation, the fee is \$90 per engine or equipment unit and you may operate the equipment after mailing this form to the ARB. If the engine or equipment unit was originally registered without an initial evaluation, the fee is \$180 per engine or equipment unit and you may not operate the equipment until you receive ARB notification.

Identical Replacement - Check this box if the existing engine or equipment unit is being replaced by an identical engine or equipment unit. Attach **Form 1, General Information**, along with **Form 7**. Identical means the replacement engine or equipment unit differs only by serial number from the registered engine or equipment unit. You must notify us in writing within 5 calendar days of replacing the engine or equipment unit with an identical replacement. Notification shall include company name, responsible official, phone number, registration certificate number of the portable engine or equipment unit to be replaced; and make, model, rated brake horsepower, serial number of the identical replacement, description of the mechanical breakdown; and applicable fees as required in section 2461. Remove the sticker from the engine or equipment unit and return the sticker with this form. The fee is \$75 per unit and you may operate the equipment after mailing this form to the ARB.

Modification to an Engine's or Equipment Unit's Configuration, Emission Control Equipment, or Operating Conditions - Describe the applicable changes and how the change has affected the configuration and/or the emission control equipment. If necessary, attach appropriate manufacturers specifications or design parameters. The fee is \$75 per engine or equipment unit.

4. *Printed Name of Responsible Party* - Printed or typed name and official title of person signing and dating form.
5. *Signature of Responsible Party with Date* - Signature of responsible member of entity.
(Application will not be accepted unless signed and dated.)
